Projects

Shop Flow

A blazing-fast e-commerce web app built with React, TypeScript, and Vite. Clean architecture, modular components, and optimized builds.

- 🔗 **Deployed Link** : <https://cerulean-raindrop-ec69fb.netlify.app/>
- 📁 **Github Repo** : <https://github.com/vishal7it/Shop-Flow>
- Smart E-Commerce Platform: I built product listing pages with advanced search, filter, and sort functionalities.
- Optimised UI state management with React Context API, including theme toggling and error handling.

Lolverse

LOLverse is a meme-sharing and discovery platform where humor meets community. It allows users to browse, share, and engage with trending memes in an interactive, fun, and modern interface.

- 🔗 **Deployed Link** : <https://fanciful-crostata-cfc347.netlify.app/>
- 📁 **Github Repo** : <https://github.com/vishal7it/LOLverse>
- Meme Sharing Platform: I developed a full-stack meme-sharing platform with features like user authentication, meme uploads, likes, and comments.
- Implemented responsive UI using React and optimised state management for a smooth user experience.

Invest-Tracker

A personal finance and investment tracking web app that helps users manage their portfolios, track investments, and monitor performance in real time.

- 🔗 **Deployed Link** : <https://stupendous-dasik-dbf4b4b.netlify.app/>
- 📁 **Github Repo** : <https://github.com/vishal7it/Invest-Tracker>
- Developed a full-stack application to track user investments, including stocks, mutual funds, and crypto.
- Designed interactive charts and analytics to help users visualize portfolio growth and asset allocation.
